Last Name: _____ First Name: _____ License #: _____

Company: _____

Address: _____

Phone #: _____ Cell #: _____ E-mail: _____

Property Owner:

Last Name: _____ First Name: _____ MI: _____

Company: _____

Address: _____

Phone #: _____ Cell #: _____ E-mail: _____

Requirements for inspection of fuel gas line/service:

- Specs of all equipment to be installed must accompany this application or web address (URL) for documents.
- Location of equipment, gas lines and tanks, if applicable, must be shown on a survey or scaled drawing.
- Proof of insurance – (Liability, Disability & Workers Comp) must be submitted for company responsible for the installation with the Village of Croton on Hudson named as secondary insured.
- Copy of installer’s Westchester County License.
- If gas line is to be placed in a trench, an inspection is required prior to back filling of the trench.
- Final inspection/pressure test must be completed by the Plumbing Inspector. Please call 914 271-4783 to schedule an appointment.

Additional Information:

Requirements for permanent installation of a whole house natural gas generator/propane tank generator:

- At least five (5) feet from openings in walls and structures having combustible walls, with the exception of the following:
 - *The adjacent wall of the structure has a fire resistance rating of at least 1 hour*
 - *The weatherproof enclosure is constructed of noncombustible materials and it has been demonstrated that a fire within the enclosure will not ignite combustible materials outside the enclosure.*
- Install according to manufacturer's instructions.
- A copy of the equipment specifications and installation instructions or web address (URL) for these documents.
- Location of equipment and gas line provided on a survey, plot plan or scaled drawing.
- Generator shall be supported on foundation or secured to a noncombustible framework.
- Pressure testing of gas piping must be completed by the Plumbing Inspector; call our office at 914 271-4783 for an appointment.
- Installed by a Westchester County licensed plumber & electrician. (Exterior underground gas line for liquid propane installation from a supply tank(s) does not require a licensed plumber. Any gas line work inside a structure requires a licensed plumber).
- Electrical certificate must be sent to the Village Engineer's office – 1 Van Wyck Street, Croton on Hudson, NY 10520.
- If an option, a residential muffler is recommended.
- Be respectful of neighbors and install the generator some distance from the property line; the middle of the property is recommended- must be 5 ft. from the property line, minimum.

Note: No permit is necessary for generators not permanently installed (portable unit)

- Please follow manufacturer's instructions.
- Keep generator away from the house. Never run a portable generator inside a building.
- If an option, a residential muffler is recommended.
- Be respectful of neighbors – the recommended location for the generator is as far as possible from the neighboring house.

Application is hereby made for an inspection of a fuel gas line or service herein specified and shown on the drawings accompanying this application. The proposed work outlined conforms to all provisions of the laws of the Village of Croton-on Hudson and laws and codes of the State of New York and the work will be performed in accordance with provisions of such laws and codes.

I certify that the above information is accurate and I am the property owner or authorized by the owner to file this application on their behalf and that I will indemnify and hold the Village harmless against any damage or injury that may be caused by or arise out of any entry onto the property in connection with the processing of the application, during construction or performance of the work or within one year after the completion of the work.
