Press Release Village of Croton-on-Hudson to Implement New Electronic Pay Station Parking Meters for daily commuters at the Croton-Harmon train station

[Croton-on-Hudson, November 30, 2009] —The Village of Croton-on-Hudson has announced the impending installation of new Pay-By-Space parking meters for daily commuters in the village-owned train station parking lot. Preparation for the installation of the parking meters has begun and will be ready for activation at the beginning of January 2010. In order to ensure a smooth transition to the new system, village staff will be on hand to assist customers throughout the process of working with the new meters.

The new meters will accept coins, bills and credit cards, in addition to providing parkers with receipts that show the date and time of purchase.

The goals of the Village in implementing the new parking meter system are to reduce the cost of collecting revenue and provide the public with a greater range of options and increased convenience when paying for parking.

To learn more about the new parking meters and how they work, please visit the Village Web site at www.crotononhudson-ny.gov
