# Overview and Process

## What is a Local Waterfront Revitalization Program (LWRP)?

Sponsored by NYS Department of State, the LWRP is both a plan and a program.

- Locally prepared land and water use plan for a community's natural, public, working or developed waterfront.
- Organizational structure, local laws, projects and ongoing partnerships that implement the planning document
- Coordinates state/federal actions needed to help the community achieve its vision

## Why Update the Croton-on-Hudson LWRP Now?

- Last update occurred in 1992, much has changed in the Village since then:
  - Most goals of the existing LWRP have been met
  - Update of community policies and projects is needed
  - Changed regulatory environment (e.g. FEMA flood maps) needs to be reflected
