Leaf pickup throughout the Village begins October 29, 2018. Each area of the map is scheduled for two pickups. This schedule will be repeated, weather and time permitting, as the leaves accumulate and the conditions warrant.

In an effort to follow the proposed schedule, DPW crews will often "jump ahead" to the next pickup area when time allows. The intention for these visits is solely a time savings effort, and does not affect the proposed schedule. These areas will be re-visited during the normally scheduled pickup.
